Dear Sir/ Madam

I have recently read about the above planning suggestion.

I am a resident in a neighbouring village but I can't quite believe it is being considered on such a site. Stoney Bank Road is treacherous on a quiet day, balancing cyclists, walkers and cars, on a busy day it's even worse. It is narrow with limited passing and anyone using that road often has to reverse to a passing place. Why would anyone think it a wise move to add 50 more homes and in turn 100 cars to that road. Local amenities of the doctors and shops are all in Shepley, accessed by this one very narrow road.

What consideration is given to the wildlife which is plentiful there. Deer, owls, birds (to name just a few) all have homes there. I am sure if they could have a voice they too would be objecting.

How do new houses sit alongside ancient woodland, not to mention the access to the proposed site on a dreadful bend.

This just doesn't seem to have been thought through properly and as a result I would like to lodge my objection to the plans.

Kind regards
