<p>Re: planning application ref 2024/62/91242/E Newlett homes land north east of Shepley road, Stocksmoor, Huddersfield, HD4 6XW</p> <p>Request: I do not want my postal address to be published.</p> <p>Objection details:</p> <p>This is an appalling application which proposes to ruin both the delicate environment on the very fringes of the ancient woodland of Stone Wood and the ambience and nature of Stocksmoor and the surrounding communities.</p> <p>In addition, works and access to this site will have an extremely negative impact on local traffic flow and, moreover, on the environment of this precious ancient woodland - exactly the sort of rare and rapidly disappearing landscape that should be protected and cherished. It is hard to think of a better or more deserving example.</p> <p>The building works and associated transport requirements themselves will cause enormous disturbance should this site be given the go-ahead; and the longer-term effect of the additional households will adversely impact the wider community and local schools, doctor surgeries and other public facilities, already under so much pressure.</p> <p>If they haven't already, might I politely suggest that the members of the committee deciding this planning application visit the site and see for themselves just how utterly absurd granting this application would be.</p> <p>Builders build for private profit. No other reason. Can you really pitch that against this site and community? Absolute no brainer. Please do not grant this permission.</p>
