<p>I write on behalf of my mum, she has no internet and as asked me to comment on her behalf.</p> <p>Stocksmoor is a small village and has no school, no shop and only 1 pub. If the houses go ahead there is a increased chanced of accidents happening when cars are going in and out of the road to the estate. The estate is close to a corner of a narrow country lane, this is used by lots of drivers; some of whom don't take their speed into account when traversing the lane</p> <p>All the local schools are over subscribed and doctors are pushed to breaking point. This also raises the issue of drainage on the site. Stones Wood, just down the road is a beauty spot and I believe contamination of the area would occur when building begins.</p> <p>Young people raised in the village are affected by house prices. They are out of reach of many young people starting out on their adult lives.</p>
