<p>The application for 50 residences is totally disproportionate to the size of the village and infrastructure.</p> <p>This estates, as that is what it is will nearly double the size of the village.</p> <p>Site access would only be available on a blind narrow bend and with the size of delivery vehicles this would become an exceptional hazard to an already busy narrow lane, that at best is single carriage with passing.</p> <p>There are already traffic calming measures in place for the busy roads around the village.</p> <p>Surely also, this has to be a green belt field area and is objectionable on this basis alone.</p> <p>Whennfarmers are already being asked to leave hedgerows and borders to fields, surely ripping up a whole field go contrary to these values.</p> <p>The possibilty of water course contamination due to run off from the site must also be considered, from either coshh substances or slurry caused by plant movement onsite.</p>
