<p>Stocksmoor is a beautiful, quiet rural village. To build a further 50 houses will have a considerable impact on both the village, the environment and the local roads. More and more of our green areas are being built on, leaving a scar on the landscape and encroaching on animal's habitats.</p> <p>Then there is the further disruption to the immediate local area with regard to traffic. These roads are not designed for heavy traffic but for local use only. Many of the surrounding roads are single lane with passing areas. Many people walk or ride, bicycles and horses because the roads are quiet. An extra 50 houses will generate a large amount of extra traffic negatively affecting the people who already live here. Even the local buses are smallz</p> <p>I urge you to consider the fact that none of the local residents want this build and surely our opinions should have priority.</p> <p>Thank you for your time.</p>
