The negative impact that over development is having in our local villages worries me greatly. This is an overzealous proposal which will be of detriment to the local area and people.

There is no school in Stocksmoor and surrounding villages which have already experienced over development have schools which are already full. In an area which follows a three tier education system, this over development is unsustainable and is going to pose big problems in the future.

I do not understand how it is sensical to have such a large site with access from such an inappropriate road. Living in Shepley, the issues this will cause in traffic on what is a small country road for local access will be enormous. Already it is a struggle to travel on this road and with blind bends and corners it has become increasingly hazardous in recent years with speeding cars. It will have a knock on impact on the traffic in Shepley too.

The identity of our villages are being increasingly threatened and this proposal would not be in keeping and offers no benefit for the area.
