<p>to whom this may concern the erection of 50 houses is going to have a massive negative impact on our village . my main concern for my objection is the amount of extra traffic this new build will create and put unnecessary pressure on our village roads, the road to Shepley from Stocksmoor is already a dangerous road to drive i use this road daily and have had many confrontations with other drivers as my alternative route via birks lane and dam hill is even worse, my wife has had 2 accident on this road at no fault of her own involving people speeding plus the crossroad from station road onto crosslane is also dangerous i have witnessed many accidents and see people drive at speeds on our roads,me and my family and friends also walk around the village and use the fields and wood regular and enjoy seeing the wild life that it provides and to have this taken away from us will be devastating,</p> <p>i would also like to point out the affects this new build will have on our children education by adding more children to already full schools that are short of teachers plus the poor public service and infrastructure of a small homely village the will not be able to cope with 50 new home</p>
