<p>This development would cause a health and safety issue as the roads are too narrow and access is totally inadequate for a development at this location. There would be a danger to life for pedestrians, walkers, horse riders, cyclists, and the access road to Shepley is single lane in most places which would lead to congestion and blockages if not death.</p> <p>A natural wildlife habitat would be destroyed.</p> <p>Noise pollution would adversely affect the character of the area. There are no services or facilities in the area to support such a large development. The character of Stocksmoor would be destroyed.</p> <p>Neighbouring inhabitants would be adversely affected by having the peace and quiet of their current location destroyed therefore having a detrimental affect on their mental health.</p> <p>The landscape is an important feature contributing to the character of the area and to destroy so much natural habitat would be wrong.</p> <p>I object strongly to any development at this location.</p>
