Hi

Please find my letter of objection below:

I wish to object to planning application ref: 2024/62/91242/E by newett homes, the planning application falls short of taking any consideration for the local area and residents never mind being wholly unsafe for the community and the future. I have summarised the main points listed below:

- Infrastructure – there is not suitable infrastructure available in the local community or surrounding area to accommodate 50 new houses
- The proposed entrance to the development is ridiculous on a blind corner how can Stone Wood lane cope with the extra traffic it is too narrow and not suitable for any more vehicles, in this area the majority of people will have cars due to the lack of public transport available so even if each house only has one car which is high unlikely then even with the extra increase in traffic this will overload stone wood road and even if the residents used the other roads such as dam hill it is narrow in parts and unsuitable for mass traffic.
- Limited public transport for a housing development of 50
- Bio diversity , the building and lands will ruin the existing bio diversity

To approve this planning would terrible, and without a care to the safety of the local community.

Kind regards
