<p>The impact on highway safety and traffic is my big concern. I am a new young driver and avoid Dam Hill as it is a difficult exit. I therefore use Shepley Road / Stones Wood Lane every day.</p> <p>Coming from Shepley is the most frightening part of the journey as you need to gather speed to get up the final hill. I see that the entrance to the proposed development is right at the top. I often have to brake sharply here when cars come from Stocksmoor, and am very concerned that this will be even more dangerous if more residents are coming onto the road.</p> <p>For a small village, the amount of traffic in Stocksmoor is very high relative to the number of houses, so people are using it to cut through from other villages. I don't think it is acceptable to increase this risk.</p> <p>As a young person, I would welcome new houses, but they need to be in a safe place and the road access here is just not attractive to me and would not encourage me to live here in the future.</p> <p>As a current resident, I strongly object and don't think this development should go ahead at all.</p>
