<p>I am objecting to this development on the grounds of its location which will have a serious impact on highways, safety and traffic.</p> <p>The proposal is for a maximum build of 50 new homes which will bring approximately 100 adults, 100 children and 75 vehicles into a community. They will all require the ancillary resources of shops, Health provision, Dentists and Schools - none of which are currently present in the village of Stocksmoor.</p> <p>To access these facilities will necessitate travel.</p> <p>The nearest location of these services is Shepley which will be reached through Stone Wood which has a single track Lane with no designated 'passing places'. This currently causes problems without the prospect of any additional traffic.</p> <p>The lane via Stone Wood will be the chosen route by residents for access to Shepley where their required facilities (mentioned earlier) exist - they will not go via the circulatory and longer route of Shepley Road, Station Road, Birks Lane, Dam Hill and A629 Penistone Road.</p> <p>It is for these reasons together with the dangerous entry and exit proposed for the estate, on a 'blind bend' and the use of an already inadequate single track Lane that I base my objection to this development.</p>
