Dear Councillors and Officers

As residents of Stocksmoor, my partner and I have previously written to object in the strongest possible terms to the above planning application.

We have attached a photo of wildlife that reside in the field which has been earmarked by Newett Homes.

This is another example of the tragic change / loss of wildlife habitat that would result if planning permission were to be granted as these and many other insect, bird and animal species rely on the “buffer” meadow for browsing and hunting.

We would also be grateful if our names could be removed whenever any material is published on the Kirklees website.

Thank you
