<p>Previous objections to this planning application have still not seriously been considered.</p> <p>Flooding continues in this location and will only be further impacted by building works causing additional flooding.</p> <p>Lots of trees and vegetation were destroyed in 2016 when the original application was made and these are now growing back and the wildlife (birds, owls, kestrels, foxes and bats) have started to build their homes again. This will unsettle the wildlife yet again.</p> <p>Access to the site is going to cause chaos as the local roads cannot take on articulated lorries and heavy plant machinery.</p> <p>Many people are working from home since the original applications were made and the noise, dust and dirt will seriously impact both working and social lives.</p> <p>The open spaces and play area will not attract young children and families - it will be a space for drug users, gangs to meet and anti social behaviour to breed.</p> <p>There is still insufficient information and detail to provide reassurance to local residents currently living in the area surrounding the proposed site.</p>
