Application number: 2024/91265	
What is the application for?:	Demolition of outbuilding, partial demolition and rebuilding of farmhouse to for
Address of the site or building:	Thorn Bush Farm, Miry Lane, Hightown, WF15 8JJ
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The original application was for a ‘Brontë Centre’ due to the links to the Brontë family. However over the last 18 months the company applying for permission have allowed the grade 2 listed building to fall into disrepair. The building was left unprotected & local children have been allowed to demolish the building & set fires. We personally have had to telephone the police & fire brigade to try & protect the building. A security company was employed to protect the building & scaffolding erected & we have even contacted them to advise that the security fencing had been breached. One Sunday the scaffolding company came & removed the roof covering protecting the building & part of the scaffolding. This again was reported to the police as we thought someone was stealing the scaffolding & metal sheets of roof covering. It is my opinion that there was never any intention to build a Brontë Centre & that the applicants have purposely left the building to deteriorate to the extent that it needed demolishing & then would render the application to be amended to be used for living accommodation.
