I do not wish for my address to be published. note there is an inaccuracy on the application regarding trees within falling distance. It denotes none on the application however there are two immediately adjacent to the planned extension in the land the other side of the boundary fence which is owned by a resident of Woodhead court. The reduction in parking is of concern, vehicles already park on the single access road where this property is located, including on the pavement directly opposite, additional vehicles will only add to this burden which could cause additional highways issues in relation to access for emergency vehicles and refuse wagons. The extension appears to go right up to the boundary fence, issue one is drainage into adjacent land, issue two is access to build without access to adjacent land and issue 3 note the property is currently up for sale and particulars state pedestrian access to the land at the back of the property for repairs, doesn't seem to be any room for this access on the plans. Whilst don't object to an extension in principle these items do need to be considered.
