<p>I am concerned about the proposed parking spaces included with the plans. There have never been 9 parking spaces with number 8. I have access down the driveway off edgerton road at the back of number 8 to access my 2 parking spaces by the side of the garage. Currently I use both of my parking spaces every day. The parking spaces marked 3 and 4 on the plans are not currently parking spaces and have never been used as parking spaces in the 10 years I have lived at the property. If they were used this would block my access to my parking spaces and I would not be able to access my property consistently.</p> <p>There is not space for another 2 parking spaces outside of the garage as marked on the plans, the space is not wide enough for 2 cars.</p> <p>Currently neither of the entrances to the basement are used regularly, the current proposals mean these would be used by the occupants of the apartments in the basement regularly. This may effect the access to my property as I use this driveway several times a day.</p> <p>I also feel the change of the bay window to doors will fundamentally change the appearance of the facade of the listed building.</p>
