Subject: Addendum to Arboricultural Method Statement (AMS) – Reference 211008 MS

Dear Katie,

Following our recent correspondence, I am writing to formally confirm an addendum to the Arboricultural Method Statement (AMS) referenced **211008 MS**.

The purpose of this addendum is to clarify that trees **T10, T11, T12, and T13** have been removed from the site due to **unforeseen circumstances**. Consequently, any references to these trees within the AMS are no longer relevant.

As this update pertains to technicalities rather than the assessment content, I understand that it is appropriate for me to submit this clarification in lieu of an Arboriculturist's report.

Please let me know if any further information is required.

Best regards,
