<p>I object to the proposed development to our neighbours property at 16 Hebble Mount, Meltham.</p> <p>The proposed plans will significantly affect the enjoyment of our property in several ways.</p> <ol style="list-style-type: none">1. Being able to see and view directly into my families bedroom and also our dining room and kitchen, the current bathroom in number 16 is already very close. This will leave us with no privacy at the back of our home or in our small rear garden.2. Our natural light and daylight will be significantly diminished with the walls and height causing darkness in the whole of the back of our house and garden.3. This development significantly reduces the value of our house and impacts heavily on the enjoyment of our home being able to be viewed. <p>I object on the above grounds.</p>
