

Consultation Response from: KC Environmental Health (Pollution & Noise Control)

2024/91455 South Royd, Houses Hill, Long Tongue Scrog Lane, Huddersfield, HD5 0NU

Demolition of existing dwelling and garage and erection of dwelling with integral garage

Responding Date:
9th July 2024

Responding Officer:
SR

Responding Ref:
WK202420554

Comments

We have reviewed the application and supporting information, we offer the following comments. The application concerns the demolition of the existing dwelling/out building and development of a new detached dwelling with integral garage.

Contaminated Land

The site of the proposed development is not situated on land identified as potentially contaminated; it is however in a Caol Authority high risk development area. In support of the application a Coal Mining Risk Assessment Report by RGS, ref: C4422/24/E/6746, dated 12/06/2024 has been submitted. The report is geotechnical in nature, which is outside the remit of Environmental Health, this consultation response therefore only relates to the land contamination aspects of the report.

The report has identified that there is potential for shallow mine workings to be present beneath the proposed development.

The report goes on to attribute a moderate risk in relation to gas but has not commented on potential combustion risk at the site.

We acknowledge the report and would expect that any future intrusive investigations and ground gas monitoring be undertaken in accordance with best practice guidance. We, therefore, recommend the following conditions.

Electric Vehicle Charging Points

We would remind the applicant that approval under the Building Regulations will be required for an EVCP, and the applicant should contact their Building Control Provider for further information in relation to Approved Document S.

Recommended Conditions

CLC2 Submission of a Phase 2 Intrusive Site Investigation Report - Condition

Groundworks (other than those required for a site investigation report) shall not commence until a Phase II Intrusive Site Investigation Report by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC3 Submission of Remediation Strategy - Condition

Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition (CLC2) further groundworks shall not commence until a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC4 Implementation of the Remediation Strategy - Condition

Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition (CLC3). In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered [in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report] is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the Local Planning Authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC5 Submission of Verification Report - Condition

Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Verification Report by a suitably competent person shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for the site in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Verification Report in respect of those remediation measures has been approved in writing by the Local Planning Authority. Where verification has been submitted and approved in stages for different areas of the whole site, a Final Verification Summary Report shall be submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC7 Contaminated land - Footnote

All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2021. Reports must be prepared in accordance with the following guidance:

- *Land Contamination Risk Management (LCRM)*
- *BS 10175:2011+ A2:2017 Investigation of Potentially Contaminated Sites. Code of Practice*

- *Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020* by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.
