<p>I object to Holmfirth Tech's application, to remove/alter planning conditions. I believe that the conditions, put in place by the LPA, need to be adhered to. The areas outside of the Tech needs to be made safer and quieter.</p> <p>I have a friend who lives in the terraces near the tech, whom I will visit. I drive my car down the narrow ramp, to park in their private parking area. I am careful as to when I'll visit, after some bad experiences. I will avoid Saturdays for example, as they are very busy.</p> <p>In the past, I have had to keep reversing back down the ramp, to let oncoming cars enter.</p> <p>Once I got stuck as a car was having problems getting up the exit ramp. The surface is bad and the car's wheels kept on spinning on the loose gravel. They succeeded in the end by taking a speedy run at it. Luckily there wasn't a pedestrian, passing at the top on the pavement. You have to be careful and slow pulling out at the top of the ramp. Pedestrians can't see you coming. Visibility has recently been made worse as the tech have started storing their bins on the pavement.</p> <p>I appreciate that it will be expensive to resurface the whole car park. The ramp is not fit for use in its current condition. It is skiddy and dangerous. That should be repaired at the very least.</p> <p>As a whole, I think there is too much traffic. It would be just as easy for people to use the nearby public car park and it costs pence. This would make it much safer for people who really need to use the tech car park, the disabled for example, and the residents, who have no choice.</p>
