<p>The property was already approved for a huge extension, converting it to a double storey home from a bungalow in the past which is imposing on the surrounding neighbours. It is also used to be a hub for a commercial van hire business, so constantly has multiple vans parked outside, which since the new construction has begun are now being parked in front of other neighbours homes all around the area by the residents of this property. This proposed 3rd storey which the resident has already started construction on, is going to completely impact the privacy of all us neighbours, whose gardens will now be overlooked by the 3 new rooms. The view from our garden will now be an ugly construction, where before it was beautiful tree tops and greenery. The building will be out of character and not in keeping with all the other properties. Other neighbours have been refused 2nd Storey extensions but somehow this resident is allowed to have 3 storeys? At a site which was originally for only a bungalow because it is the corner plot on a busy corner, which this house already causes safety issues on by parking all their cars outside their home, is now going to cause even more of a dangerous corner for us neighbours to drive by. We strongly disagree with permission to be granted for this property.</p>
