This property has been derelict for years and would benefit from improvements however the current planning application is far to ambitious for the size of the sight, access needs to be available all times to allow traffic into the Broomfield industrial yard a project on this scale would cause chaos to the surrounding businesses plus the busy A616,refuse wagons would have no where to park apart from the main road an accident hotspot at the traffic lights directly outside the building.Two years ago the building completely flooded and is on a flood plane .The construction of a building of this scale would be a huge danger to the highway and surrounding businesses with cranes no off street parking for tradesman no physical space to store building materials the off loading of such materials,it is simply not practical on a project of this scale.
