<p>I wish to object to the planning application. I agree with all the objections/concerns raised in the previous 20+ comments around missing information/errors on the application but my main objection is due to the potential health implications that it would have for me and my family if it went ahead.</p> <p>My main concern is for the health of me &amp; my family who would be more at risk due to the potential pollution &amp; traffic increase that this would bring. There is also more risk on our mental health from hearing/smelling the poultry especially if the poultry are in distress. As others have raised in their comments, the proposed shed dimensions don't appear to follow regulations &amp; the application lacks information on waste disposal which could hinder the poultry's welfare. As a Vegan &amp; Vegetarian family, we hate the idea of animals in distress &amp; as we live very close &amp; are downwind of the proposed site, we would be able to smell &amp; hear them daily as we enter our house from the main entrance. Me &amp; walk passed the site where this is proposed most days as it is a beautiful, safer route to walk to &amp; from The other route is on the main road which is extremely traffic heavy at school run times &amp; the pavement is very narrow in places making it unsafe walking that way</p>
