| <p>11 thorgrow close house is situated within a small shared ownership private residential drive with two other family homes. This drive in question is privately joined owned by 7, 9 and 11 thorgrow close and has a small entrance off a long sweeping blind bend.</p> <p>Number 11 has allocated parking space for 3 small cars immediately In front of the property and accessed after driving through the small shared ownership private drive home of three houses.</p> <p>I believe this dangerous due to number of vehicles people arriving and leaving and their visitors vehicles parking up to 7 staff and visitors at the same time on multiple occasions. Also the other residents coming and going on foot who live in the shared drive.The staff and visitors will enter via privately owned shared land between the three houses this is far more vehicles and people than the property or drive can safely accommodate and visitors would be forced to park on the roadside that is a long sweeping blind bend that is already made difficult for passing vehicles and present residence of the surrounding houses.</p> <p>There will be 4 staff /cars at shift change over coming and going at the same time twice a day early morning then late evening as stated in the application.</p> <p>The application states 3 staff during the day then 2 during the night also having up to 4 visitors at one time on multiple occasions this is a lot of cars and people plus add other houses residents and visitors.</p> <p>Given the drive is actually a small shared private ownership residential drive own by the 3 houses I do believe this not the place or appropriate for a business with multiple unknown visitors and staff up to 7 people at a time on a small privately owned shared drive.</p> |     |
