The house is out of character for the street it also seems to be going towards a h.m.o with 3 out of 4 bedrooms having ensuite I'm concerned with having all the occupants and all having vehicles where would they park as they'd be no room for parking on the property only the road which means the pavement also we have trouble as it is with school traffic blocking drives to get in and out as we know mr raja also owns number 24 since august 2019 and the building work is still not finished and from what I understand not always my house is on the bend so this is going to be terrible getting in and out of drives when building starts it is a quite cul de sac without having multiple people coming and going across from where I live also having to look at the size of the house my opinion is the planning should not go a head of such a size and all the disruption when there's also elderly people living on the street number 24 needs to be finished according to the plans first
