<p>REF - 2024/91633</p> <p>I am writing to the council to look into the planning application referenced above which propose construction of a single storey of 5 meters by 4 metres high single storey extension.</p> <p>The proposed development will have will have an impact on the amount of natural sunlight . As the proposed extension will be directly blocking sunlight to come through particularly during the morning/afternoon/evening.</p> <p>The loss of light will result in being in shade for extended periods, reducing the natural warmth and brightness to come through.</p> <p>The obstruction will necessitate increased use of artificial lighting, contributing to higher energy costs and reducing the sustainability of my household.</p> <p>I ask the council to look into this proposed development and get back in touch with me.</p> <p>thanks you for taking my concerns into account</p> <p>Kind Regards</p>
