<p>I am concerned that the size and placement of the proposed balcony and fencing will impact negatively on the quality of our living experience, specifically the view from the rear of our property and the dining room in particular. We purchased our property based on the view and outlook, and have subsequently built our living experience around the dining room and dining room window. I believe this experience will be diminished by the proposed balcony, and I will be saddened by a development that restricts our access to the current outlook and view.</p> <p>There is also concern that sound spill from such a large open area leading from the property would effect ambient noise levels and cause disturbance.</p>
