Subject: FW: Planning Application Comments - 2024/70/91684/W

Morning,

I am emailing my comments because no matter how hard I try I cannot get the address selection box to work and move through to the next page so I can leave my comments there.

Surely every vendor should have to comply to the same rules, why should this location be any different? People from all around the area come to Marsden and many want to dine into the evening, just as people are considering eating out Oi Dumplings is forced to close, why is that acceptable when the other venues (adjacent and a few doors down) get to stay open later? Please lets give this business the same fighting chance as the rest of the vendors in the village and allow them to feed the hungry people until later into the night.

Many thanks
