<p>Cafe Oi will be a fabulous addition to our up and coming village. They put the village on the map when they started in their previous premises. They have got to be allowed to start out on a level playing field and having to shut when other similar business's in the village are able to trade is incredibly unfair. They have invested their own hard earned money into this venture and personally I feel their little cafe would be an absolute asset to the village. They should be given the same licence as every other eating place has been given.</p> <p>I note there is an objection due to aromas their food will make. Absolutely nonsense. Would they be able to lodge such a complaint if a family who eat similar food as part of their culture moved into any of the premises already above the row of shops in that row?</p> <p>It will be a very sad day for these people and the village if their planning application is rejected</p>
