To whom it may concern,

I am writing this email to object to the opening of a children's home at number 45 Manor Park. I am a resident on manor park and own number 26 which is opposite the proposed home.

The street already has a great deal of traffic due to people cutting through from the main road. Staff at the home would need to park their cars aswell as the homes car and at handover time this would create a disruption and would involve staff parking on the street.

I have a vulnerable child who i currently home educate due to her additional needs. Although i understand that all children need a home, as you can appreciate my child is my priority and i would be concerned about the impact a children's home being directly opposite our home could have on her.

Kind regards
