Planning application 2024 /CLD/91725/E

I am writing to complain against the above my reasons are :-

a. Parking, we already have problems with employees of John Cottons, opposite Manor Park, We also get people using Manor Park as a short cut. We do not need more vehicles.

b. We have many residents who are old and widows including myself, I have recently lost my husband, we would feel very vulnerable having older children with emotional and behavioural issues living at Manor Park.

c. Next to and attached to number 45 Manor Park, lives a young family with very young children. There are many young families with young children at Manor Park.

d. I feel this application would devalue our property.

I look forward to your comments.

I am writing to lodge a formal complaint against planning application 2024 /  
CLD/91725/E 45 MANOR PARK

I do not think the location of the house is suitable for the proposed uses for the following reasons:-

- a. Parking, we already have problems with employees at the factory John Cottons across the road. We also get people using Manor Park as a short cut. We do not need more vehicles.
- b. The average age of our small cul de sac is at the higher end with many being widowers living alone. We have young children on the estate who we do not want to feel intimidated by older children with emotional and behavioural issues.
- c. I feel this application would devalue our property.

I look forward to your comments.
