Responding Ref:

There are no protected trees on this site.

The only impact on any trees appears to be within the Root protection area of T1. This infringement is minimal and should not result in any future problems for the tree.

The submitted Arboricultural Method Statement sufficiently details that there will be no impacts on any of the other trees on site and that the tree protection measures will be in place to keep all construction outside of RPA's.

No further comments and no objection.
