Description of Proposed Works

Please describe the proposed works

The proposed ground floor extension is in line with the existing kitchen extension approximately 4 metres out from the existing dwelling and increasing the width to that of the existing terraced house an additional 1.8m wide. The property next door No.17, which the proposed extension is closest to is in the same family ownership and they have no objections to the proposed extension out approximately 4 metres. The purpose of the extension is to create a wet room for a member of the family who has mobility and medical issues and finds the use of the first floor via the staircase a problem when access is required quickly. Part of this extension will be used as a lobby area for the storage of blood and medical products/equipment. The velux rooflight will provide light and ventilation to the existing living area. The existing basement access will be retained and the steps down repositioned.
