

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	MR & MRS CLEGG
Site Address	12 HIGHROYD LEPTON HD8 0EB
Description of Development	SINGLE STOREY REAR EXTENSION

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
LOW ENERGY LIGHTING WILL BE USED, HIGHLY EFFICIENT LIGHTWEIGHT WALL & ROOF PANELS ARE BEING USED
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
LOCALLY SOURCED MATERIALS WILL BE USED WHERE POSSIBLE
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

RENEWABLE RESOURCES ARE UTILISED IN PANEL MANUFACTURE

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

LIGHTWEIGHT ENERGY EFFICIENT WALL PANELS ARE TO BE USED,
INCREASING INTERNAL FLOOR AREA/RATION

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

THE AREA COVERED BY THE NEW STRUCTURE WILL BE DRAINED AWAY
USING MAIN DRAINS

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

NONE

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

NONE

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

LIGHTWEIGHT WALL & ROOF PANELS ARE TO BE USED, REDUCING ON
SITE CONSTRUCTION ACTIVITY
