Comments

The submitted Design & Access Statement from Progressive states the property was formerly commercial up until 1985 when approval was given to change the use to residential. Following this, permission was granted in 2014 to convert it back to commercial use, but this permission was never implemented. With the former bank building adjacent currently being converted into a restaurant, the owners are concerned that 2 Lewisham Road will not be suitable for residential use any more, and so wish to apply for change of use to a commercial use.

Having reviewed the submitted information, we have no objection to the proposal.
