Good Afternoon,

There is a tree located on a small green island in the middle of the Scholes Conservation Area I would like to remove. It is a large ash which is in very poor form & seems to be succumbing to ash dieback. The tree has been in decline for some time now, its at a point where I think it would be prudent for us to remove it (see photos attached). The tree is not imminently dangerous however I would like to carry out the work sooner rather than later. Would you like me to fill in a form or are you happy with me to proceed based on the information I have provided here?

Many thanks

Phil
