<p>I would like to object to the proposed change of land from equestrian centre to dog exercise and associated work</p> <p>The access to the centre is the small road which is an entrance to a small housing development not designed for lots of traffic but it also runs along a children's playground and below the local school therefore more traffic is dangerous it also accessd from the village green already a bottleneck dangerous at school time children run across all the time</p> <p>I also object as there is going to be more noise pollution from lots of dogs this is a residential area</p> <p>I would like to know what associated works mean ? Is this dog kennels through the back door ! Very vague and this would definitely be unacceptable due to noise dogs barking all night and day .It is vey close to house and would cause noise disturbance and odour</p>
