<p>This field is an invaluable resource where dogs can be exercised safely (especially nervous or reactivative dogs) and owners also feel safe (sadly i have encountered difficulties with dogs and humans in open public spaces such as Oakwell).</p> <p>The entrance to the field is at the end of a cul de sac and therefore as far as i am aware parking does not cause any obstruction for neighbouring properties. I exercise my two dogs safely and securely with absolute piece of mind in the field and as a woman alone that is invaluable. I am mindful it is in a residential area and respectful of the properties nearby. The field is obly accessible by a code and the booking situation is such that you have left before the next person arrives.</p> <p>A very professional set up, and in my opinion, a valuable resource to local dog owners.</p>
