<p>This is a great facility for dog owners or local dog walkers to safely exercise their dogs, particularly those that are unable to be exercised in public or busy places. Bookings are made online so that only 1 person and dog(s) attend at a time, usually only 1-3 dogs, I've never encountered any issues with parking, local residents or otherwise in the years I've used the facility as it is very well and carefully managed. Any minor noise arising from dogs barking would be no different from dogs playing in a garden or on a walk and would be short lived as they are not left unattended and bookings are only 45 minutes long. The facility is only open during daytime hours, 8am- 6pm I believe, which seems completely reasonable.</p>
