<p>This is a very valuable service that is in fantastic condition. When you have a reactive dog you need areas like this where you can exercise them freely and without any worries. This is one of the bigger dog fields I know which really allows your dogs to blow off steam.</p> <p>Everything is done to the highest standards and with the surrounding environment in mind aswell as the dogs health and safety.</p> <p>It brings no extra traffic as its appointment only so its 1 or 2 cars at most.</p>
