<p>We use this field often with my dogs, its safe, its relaxing, its not expensive. I have 4 large dogs, when i take them all out together i get badly behaved off lead dogs attack mine, but mine get the blame as they are a pack, rubbish owners who dont care. Dog attacks are high. I no longer use busy dog walking areas. Using fields like these prevent these issues . we need more fields like these. Never ever stop fields like this.</p> <p>These owners of this field helped me massively after a foot operation, if it wasn't for them i would of struggled for months walking my dogs Everything i asked they provided.</p> <p>The field is always clean, clean running water , no issues at all. The dogs love it.</p>
