| <p>This field is a safe haven for many dogs. Taking it away will restrict yet more areas for dogs, from dogs with issues to banned breeds, larger breeds and breeds which people fear out of stereotyping.</p> <p>This field has been a god send for mine and most likely many other people! Dogs unleashed goes above and beyond for all dog types and issues (mine is anxious and reactive around other dogs so us using this field has helped build his confidence and socialise with dogs close to us safely). And safety is KEY when it comes to dogs.</p> <p>Ive seen many happy pups and dogs excited to go in and many tired but happy leaving, all wagging their little tails chuffed to bits having had a good play and burning off excess energy.</p> <p>This place is the perfect area for those with larger or stronger and even working breeds to get exercise and have fun whilst being off leash with out the risk of knocking a child or adult over, with out the risk of injury or seeing the fear on a passer-by's face because theyve jumped up/barked/playfully growled/chasin a ball etc.</p> <p>The service it provides is outstanding, catering for ALL dogs including dogs with issues - anxiety, social anxiety, trust issues in a relaxed, safe and secure environment. Any special requirements/assistance is catered for.</p> <p>Its an ideal place for those who have adopted a rescue dog/pup also....gives them the freedom of being out, freedom to train and build on their dogs again whilst being safe, in a secure area and relaxed.</p> <p>Its a lovely place regardless of weather, the views are beautiful and the training equipment is brilliant, plenty for all dogs to do!</p> <p>Lets not take away and restrict such a useful and, for many, a necessary area for their furry companions.</p> | |
