<p>As a regular user of this facility I am in support of this application. The booking system is effective and efficiently managed, users are respectful of entrance times, parking &amp; access. Personally I have never met another user as they have 15 mins between each appointment booking. The area is usually quiet and peaceful.</p> <p>The staff are available and visible.</p> <p>The area is well maintained, clean with secure fencing and keypadded entrance.</p> <p>An excellent and needed facility to safely exercise our dogs off lead and as a group.</p> <p>The booking system ensures you are adhering to safe use for all users.</p>
