| <p>I have limited mobility and use this field regularly with my dog. The field has seating areas all around and for me this is essential as I can rest when needed.</p> <p>The owners allow me to park next to the field which gives me peace of mind that I can safely get my dog out of the car and into the field.</p> <p>It is has beautiful views and is really clean and there are lots of toys available for my dog to play with.</p> <p>I do not see any other dogs whilst there as the booking system gives plenty of time for me to get out of the field and away before another dog owner arrives.</p> <p>We both enjoy this dog field so much, my dog gets to be off lead and play and it really helps me with my mental health.</p> <p>I really hope Kirklees don't take this away.</p> | |
