It's a privilege to have the space for dogs in the village. I have a rescue hunting dog with no recall and this park is a safe space for her, other dogs and live stock while she is exercise. The dog park is well maintained, clean and only allows 2 dogs onto the field so prevent large groups from attending. This dog park is on a popular dog walking route that goes through the farm and I'm aware that a lot of people, including myself walk their dog to this site, so the amount of extra traffic is negligible. Parking for the site is off the main road. The dog park, not really noticeable from the street and is very secure with an electric gate. Please do not close this park, we are lucky to have it .
