<p>Impact of highway safety - small road leading to site - morning and evening traffic very heavy due to East Bierley School - cars parked all over the place - small road (The Marsh leading to Soureby Cross Way) not suitable for traffic and no road markings. No information on what development will look like 'associated works' what will that mean ?</p> <p>This could well effect the lives of people living in the neighbouring properties who may well be disturbed by noise from barking dogs all day.</p>
