**Subject:** Birkenshaw Dog Field

Hi,

I have heard that there is a planning application for the dog field to continue as such.

My email is in support of this. I use the facility regularly and would not have anywhere else locally to let my dog have a run safely and do not drive so have no access to other places.

I understand that it has been proven that the noise is an unsubstantiated claim and I would like to add that the odd excited dog barking is no reason to close the facility.

Please allow the needed and well used field to be used for our pups and let them be exercised safely, while getting the socialisation with other dogs that they need for a full, rounded life.

In this age of well publicised dog attacks, conscientious owners should be catered for.

We are the owners who care about their responsibilities in owning a dog.

Regards
