

Consultation Response from: KC Environmental Health (Pollution & Noise Control)

2024/91901 - Former Market, Blanket Hall Street, Heckmondwike, WF16 0HD

Change of use from Vacant Land to Public Open Space with ancilliary works

Responding Date:
26 July 2024

Responding Officer:
Mohammed Nasim

Responding Ref:
WK202422348

Comments

The site sits adjacent to potentially contaminated land and conditions are recommended for any unexpected contamination encountered during any works. The submitted plans show soft landscaping and it is expected that soil will be imported onto the site as part of the development. A condition is recommended for the submission of a verification report for any imported soils.

Recommended Conditions

CLC6 Reporting of Unexpected Contamination – Condition

If contamination, the presence of coal and/or evidence of coal workings not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all works in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works in the affected area shall not recommence until either (a) a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority or (b) the Local Planning Authority has confirmed in writing that remediation measures are not required. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy.

Following completion of any measures identified in the approved Remediation Strategy a Verification Report shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as that part of the site has been remediated in accordance with the approved Remediation Strategy and a Verification Report in respect of those works has been approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 189 and 190 of the National Planning Policy Framework.

CLC7 Contaminated land - Footnote

All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework. Reports must be prepared in accordance with the following guidance:

- *Land Contamination Risk Management (LCRM)*
- *BS 10175:2011+ A2:2017 Investigation of Potentially Contaminated Sites. Code of Practice*

- *Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020* by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.

LQ1 Imported Materials

Prior to materials being imported to the site, a strategy detailing the intended placement, the source, characterisation and the suitability of any imported material must be submitted to and approved in writing the Local Planning Authority. The testing to demonstrate suitability must then be carried out in accordance with the approved strategy. Following importation and placement of the materials as described in the approved strategy, a Verification Report shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time until a Verification Report has been approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 189 and 190 of the National Planning Policy Framework.
