The back garden of the proposed alterations border my side garden. I oppose the proposed alterations for the following reasons. The extensions are far too large for the plot of land and does not fit in with the rest of the neighbourhood. There are many underground streams and springs in the area and a extension could cause the water courses to change direction which could affect my property and neighbouring properties with flooding. View from my property would mainly be a bland brick wall. Mature trees at the rear of the property would have to be felled to create light. Nesting birds and squirrels are regular seen in these trees.
