**Date Responded: 12/08/2024.**

**Responding Officer: Martin Stephenson**

**Responding Ref: 1**

**Documents reviewed by the LLFA:**

Silkstone Environmental:

- 12024-506, Proposed Final Restoration, Rev – dated June 2013.
- Supporting Statement, dated July 24.

**Drainage Summary:**

The LLFA notes from the Supporting Statement (Section 5.4 – Surface Water Management) that the existing Settlement Lagoons are to be retained and the new drainage channels will discharge surface water to them. As such, there will be no increase in flood risk – therefore the LLFA has no comments on the proposed restoration plan.
